Note!

Please note that there can be small differences between your product and the images in these instructions.

Note!

Please note that during storage and transport, especially at high ambient temperature, some of the oil and grease used for assembly may leak and stain the packaging. This will not cause damage to the product, wipe off the excessive oil or grease with a cloth.

Note!

Before you install this product, check the kit contents. If anything is missing, please contact an Öhlins dealer.

⚠ Warning!

Before you install this product, read the Öhlins Owner's manual. This product is an important part of the vehicle and the vehicle stability.

Steering damper for Yamaha R1/MT10

SD 047

Mounting Instructions

ÖHLINS®
ADVANCED SUSPENSION TECHNOLOGY

MOUNTING INSTRUCTIONS

⚠ Warning!

We strongly recommend to let an Öhlins dealer install this product.

⚠ Warning!

If you work with a lifted vehicle, make sure that it is safely supported to prevent it from tipping over.

Note!

When you work with this product, see the vehicle service manual for vehicle specific procedures and important data.

Note!

Before you install this product clean the vehicle.

Instruction for R1:

1

Remove the mirrors.

2

Remove the inner panels below the handle bars.

3

Remove the upper front fairing together with screen.

Disconnect the original steering damper cable.

4

Connect the resistor (21702-02), supplied in this kit.

Attach the resistor with the tie-raps provided.

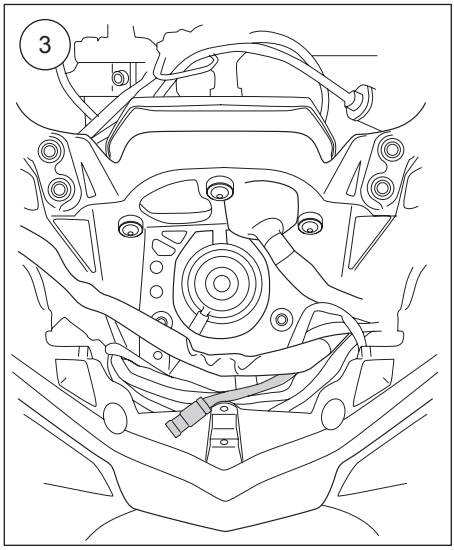

5

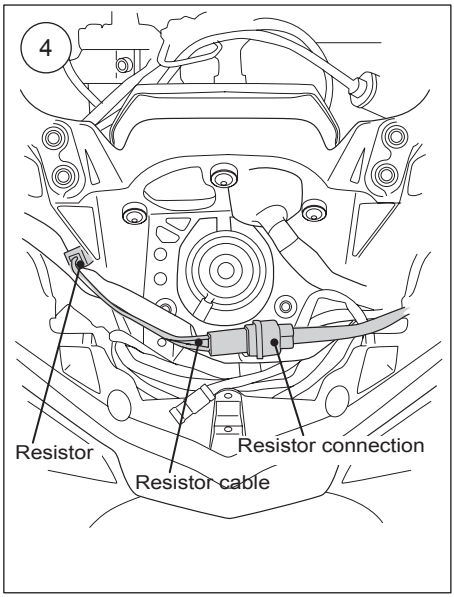

Remove the panels under the lower triple clamp.

6

Remove the original steering damper.

Continue on page 4.

MOUNTING INSTRUCTIONS

Instruction for MT10:

1

Remove Right hand side “air intake cover” and wiring cover.

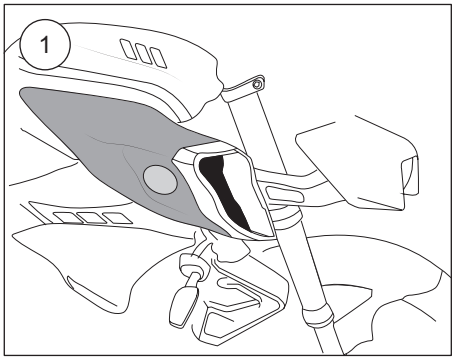

2

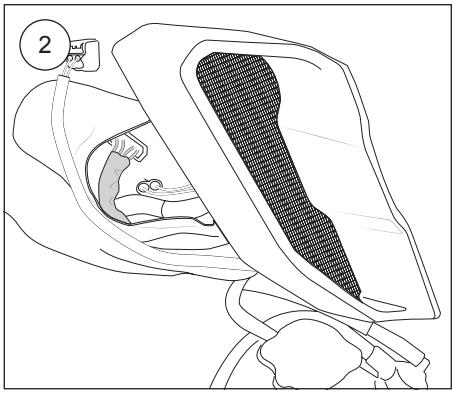

Follow original steering damper wiring to connector and disconnect it. Connect the Ohlins Resistor (21702-02), supplied in this kit. Attach the resistor with tie-raps provided.

3

Remove the original steering damper.

Continue on page 4.
